All the Way From Love

Pugwash

Hauled away from love
Hauled away from love
Kicking and screaming
Begging and pleading
Hauled away from love
Called away from love
Called away from love
What can I do to reach out to you
When called away from love
As weeks and months and years subside
We'll always have that time inside us
Stored away my love
Stored away O love
Flown away from love
Flown away from love
Walking away with nothing to say
Flown away from love
Memories so strong will never be undone
All that remains is killing the pain
Memories of love
As memories turn to autumn
And the hickory descends to earth
Store away my love
Store away my love
As weeks and months and years subside
We'll always have that time inside us
Stored away my love
Stored away O love
All the way from love
