Come on baby get me into the car
Out on a bender and waiting for you, get me out of the bar
I don't feel like staying, I just want something to do
I just wanna sleep it off with you, pour me into youCome on baby get up just to get down
Out on a bender and waiting for you, count me out on the town
I don't feel like staying, I just want something to do
I just wanna sleep it off with you, pour me into youI don't want you feeling like I do yeah, yeah
I just want you twisted with me too yeah, yeah
I don't know what I've been trying to prove yeah, yeah
Every time I get too fucked to move yeah, yeahCome on baby get me into the car
Out on a bender and waiting for you, get me out of the bar
I don't feel like staying, I just want something to do
I just wanna sleep it off with you, pour me into youI don't want you feeling like I do yeah, yeah
I just want you twisted with me too yeah, yeah
I don't know what I've been trying to prove yeah, yeah
Every time I get too fucked to move yeah, yeahI don't want you feeling like I do yeah, yeah
I just want you twisted with me too yeah, yeah
I don't know what I've been trying to prove yeah, yeah
Every time I get too fucked to move yeah, yeah
