

Where the Enemy Sleeps...

Kataklysm

We stand in hell, inside the tombs of heaven
My way is your way, we play fire with fire
We fight to die, survive to kill
Man of strength, man of sin, man of courage
Forever sorrow, no one left behind
We stand alone, until the last cry
The last cry I can't feel, my nerves have turned to steal
My emotions unreal, pull the trigger to kill
Forgive me father for I have sinned
I have sinned Beneath all innocence, innocence
My mind is covered in blood
I feel like I'm born again, born again
Without the heart I once felt Save me, save me
Save me, save me for I am no more Honor is everything I am
Disconnected from reality
This is a war, this is a war Beneath all innocence, innocence
My mind is covered in blood
I feel like I'm born again, born again
Without the heart I once felt We will hunt them down, down
We will strike where the enemy sleeps
We will hunt them down, down
We will strike where the enemy sleeps Where the enemy sleeps
Where the enemy sleeps
Where the enemy sleeps We stand in hell, inside the tombs of heaven
My way is your way, we play fire with fire
