Happy

Goldfinger

If I were you and you were me
And we were back in '93
We had it all and all was well
And this was where about I fell
But that was then, we could pretend
Our differences would be the end
I take it back, full-blown attack
Now it all just fades to black
I just wanna feel alive
Time goes flying by
Doodoo doodoo doodoo
Doodoo doodoo doodoo
If this is how it's gonna be
Then I might as well be free
If this is how you're gonna act
Then I just won't take you back
I knew you well, I knew you then
But now I can't seem to pretend
Where have we gone
It's been so long?
I just wanna feel alive

Time goes flying by
Doodoo doodoo doodoo
Doodoo doodoo doodoo
Doodoo doodoo doodoo
Doodoo doodoo doodoo
If I were you and you were me
And we were back in '93
We had it all and all was well
And this was where about I fell
I would've died, you never lied
Way before we even tried
And if I knew what we'd go through
Would I still be into you? Still be into you?
I just wanna be happy, I just wanna be happy
I just wanna be happy here sometime
Doodoo doodoo doodoo
Doodoo doodoo doodoo

Doodoo doodoo doodoo
Doodoo doodoo doodoo
