

Take Me On

The Green

I was in a song and it
Turn me around so
I never heard a word you said
And with so much going on
Your words they just got lost
And I wouldn't even try to guess
But the clock is runnin out
We don't have a lot of time
We got to make it up
And get on the vibe, yeah

So take me
Don't hesitate to
We gotta find out how to get it goin strong
Just take me
No hesitating
Get em answers to me will you now yeah
Come take me on, no
Come take me on, ooh

Now you were at that dance havin
Oh, singin and dancing
And you never heard a word I said
And with so much goin on
My words they just got lost
And I wouldn't wanna guess instead
But the clock is runnin down
We aint got a lot of time
We got to make it up
And get on the vibe, yeah

So take me
Don't hesitate to
We gotta find out how to get it goin strong
Just take me
No hesitating
Get em answers to me will you now yeah
Come take me on, ooh yess
Come take me on, ooh

Oh wont you take me on, yeah

Oh lord, come take me on
