

Take You Higher

[Niklas Edberger, Anders Kampe & Henrik Wikstrom](#)

Babe
There you are,
A lonely sunrise shining in the darkest night
Babe
There a fire,
We don't need the guide in hands to find who we are
Ooh, ooh
And you know I'll be right there when you call
Hey, gonna take you higher
All around ya
What's around ya
Gonna make you stronger
Hey, gonna take you higher

Babe
Deep inside
There's a need to find out who we are
Eyy
And, don't compromise
And the will to succeed no matter where we are
Ooh, ooh
And you know I'll be there when you call
Hey, gonna take you higher
All around ya
What's around ya
Gonna make you stronger
Hey, gonna take you higher
Nothing hurts ya
World deserves ya
Gonna make you stronger
Hey, gonna take you higher
