Just In Case

Nivea

I know this music is loud but I'm gone say this
And I hope that you can hear threw all this craziness
See I don't mean ta be all up in yo ear boy
But I gotta make sure you hear me clear boy
(C'mon)
Don't be worried, I'm gone run this down real quick
'Cuz I know you leavin' in a little bit
And see ya Neva undastand why I'm fuckin' you
And why ya lettin' me, sweatin me and I know you feelin' me
I don't usually sweat every guy I meet
But I may not ever get this chance again
So I'm lettin' you know that I want to
Holla if not tonite lata on will be alright
Just in case yo girl decide to play take this phone number, babe
Hit me back if you wanna get down like that
She can't do what I can do for you so if you feel me, babe
Hit me back if you wanna get down like that
Something's tellin' me that you don't really wanna be
In this club with her and you'd rather be alone with me
Still I don't wanna start confusion but I had to speak
The way she actin' more I know it made you wanna leave
I understand if you don't ever use this number
But boy I reccomend you neva lose this number
And if you ever feel the need ta get away from her
Just hit me I'm Nivea, I'm leavin' now it's all on you
I don't usually sweat every guy I meet
But I may not ever get this chance again

So I'm lettin' you know that I want to
Holla if not tonite lata on will be alright
Just in case yo girl decide to play take this phone number, babe
Hit me back if you wanna get down like that
She can't do what I can do for you so if you feel me, babe
Hit me back if you wanna get down like that
Just in case yo girl decide to play take this phone number, babe
Hit me back if you wanna get down like that
She can't do what I can do for you so if you feel me, babe
Hit me back if you wanna get down like that
Whoa just in case ooo yeah what mmm ooo just in case!

Just in case yo girl decide to play take this phone number, babe
Hit me back if you wanna get down like that
She can't do what I can do for you so if you feel me, babe
Hit me back if you wanna get down like that
Just in case yo girl decide to play take this phone number, babe
Hit me back if you wanna get down like that
She can't do what I can do for you so if you feel me, babe
Hit me back if you wanna get down like that
Just in case yo girl decide to play take this phone number, babe
Hit me back if you wanna get down like that
She can't do what I can do for you so if you feel me, babe
Hit me back if you wanna get down like that
