Set You Free

Kem

I'll give you all my heart all the time
Through the rays of the sun, through the darkness of night
I'll sing you melody that will make you see
Through the windows of time, heal all your heart aches
And while you're strong enough to let love
Let it set you free, oh girl, yeah
I'll heed your every word, feel every phrase
I'll remember what you say, all your memories will be mine
You will never have to roam, you are always home
Have you refuge in my heart, our love is sacred
And while you're strong enough to let love
Let it set you free, let it set you free, yeah hey
You've gotten over breaking your heart
There's no better place to be
So open it up come go with me and let love set you free, hey
Let it set you free, girl, oh hey yeah, let it set you free
(Through the rays of the sun)
Come on babe
(Through the darkness of night)
Let it set you free
(I'll remember what you say)
(All your memories will be mine)
Let it set you free
(You will never have to roam)
Never have to roam
(Have you refuge in my heart)
Let it set you free
(I will never leave your side)
I will never leave your side
(We can make it)
(Done it)
Let it set you free
(You will never have to roam)
(Have you refuge in my heart)
Let it set you free
(I will never leave your side)
Come on
(We can make it)
Let it set you free, girl

(You will never have to roam)
Roam, baby
(Have you refuge in my heart)
Let it set you free, baby
(I will never leave your side)
Come on don't you want to go girl, yeah
(We can make it)
Let it set you free
(You will never have to roam, girl)
Come on
(Have you refuge in my heart)
Let it set you free
(I will never leave your side)
(We can make it)
