Don't Forget

Brett Dennen

Don't Forget, Don't Forget
Mmhmm
That I believe In You
Should you forget, should you forget
Let me remind you
That I am behind you
You were a secret, waiting to be found out
Son you'll be what everyone is talking a-bout
May you spread your love like laughter
And find whatever your after
Open all your windows, and let the music spill out
Don't forget, Don't forget
Mmhmm
That I believe in you
Should you forget, Should you forget
Let me remind you
That I am behind you

May you dance like rain upon a still lake
You make this world a beautiful place
No more crying, don't shun your light, keep shining
Wipe your tears from your sweet face
Don't forget, Don't foget
Mmhmm
That I believe in you
Should you forget, Should you forget
Let me remind you
That I am behind you
Don't be afraid should things happen to change
Cause change can be a beautiful thing
Should things fall apart
Be patient like a rainbow
Life is loving and letting go
Mmhmm
