Dance

SoÌ•ley

I dance away from all my fear
Come back, my feet will move until I like them there
My soul will dance over your house
Your house will never smile again

Take all your memories
(For us dance, for us here)
Put them in your past
(For us dance, for us here)
'Cause you need to run away
(For us dance, for us here)
The dance is not over
(For us dance, for us here)

Remember light your house on fire
Be quiet, don't wake up the fear
It's sleeping put your fear in the bag
I read now, close it love and leave

Take all your memories
(For us dance, for us here)
Put them in your past
(For us dance, for us here)
'Cause you need to run away
(For us dance, for us here)
The dance is not over
(For us dance, for us here)

Dance for us, dance for us, dance for us fear (x6)

(For us)
Dance with us, dance with us, dance with us fear
