Unless I Can Kill

Mondo Generator

Complete the hands of formaldehyde
It's yours
Yeah
I built a special shelf above the mantle next to Mars
Ahhh haYou'll be my next
You'll be my nextEvery night I drive in my motor of steel
Steal innocent lives cause idiots have to die
Yeah
Ah, and then I use the dynamite I found
I don't wanna live, I don't wanna live
Unless I can kill, kill, kill
Die, die, die
YeahYou'll be my next
You'll be my next
You'll be my next
