Hold Me

Carl Wilson

You know that there`s an achin` deep inside me
Tearin` me apart each lonely day
You can sooth my spirit with some of your lovin`
With you by my side we can make it OK
There`s a way of love with you
And I`m seeing the glow
All I need is understandin` just to
Let me growI can`t tell you now `bout all of my reasons
Burdens of this life have me in a trance
You can help unlock my other secrets
Though your warm embrace I give the
Good life a chance
There`s a way of love with you and I`m feelin` it flow
All I need is understandin` just to let me grow
Hold me - just a little tighter
`Cause when you hold me - I don`t have to fight itI don`t want to sound like I`m full of self pity
`Cause that`s not the way I want it to be
All I need for now is your love to forget her
Love so sweet completely settin` me free
There`s a way of love with you
And I`m seeing the glow
All I need is understandin` just to
Let me growHold me - just a little tighter
When you hold me - I don`t have to fight it
