Please Stay

Natty King

I fell in love with you
The moment that we met
And till the end of time
I never will forgetI lose it every time I'm close to you
Under your spell, you know there's nothing I can doPlease stay my, babe
Who knows when we'll dance again
And I don't want to know regret
I'll do all that I can just to get youTo stay, my babe
Who knows when we'll dance again
And I don't want to say goodbye
But who knows where we'll be after tonightThere's nothing stopping us
You don't have to go
The night is young for us
There's more we need to knowI lose it every time I'm close to you
Under your spell, you know there's nothing I can doPlease stay my, babe
Who knows when we'll dance again
And I don't want to know regret
I'll do all that I can just to get youTo stay, my babe
Who knows when we'll dance again
And I don't want to say goodbye
But who knows where we'll be after tonightI lose it every time I'm close to you
Under your spell, you know there's nothing I can doPlease stay my, babe
Who knows when we'll dance again
And I don't want to know regret
I'll do all that I can just to get youTo stay, my babe
Who knows when we'll dance again
And I don't want to say goodbye
But who knows where we'll be after tonightPlease stay my, babe
Who knows when we'll dance again
And I don't want to know regret
I'll do all that I can just to get youTo stay, my babe
Who knows when we'll dance again
And I don't want to say goodbye
But who knows where we'll be after tonightPlease stay my, babe
