Overrated

Thriving Ivory

She makes herself at home..
Oh God, it's better than her place.
She loves the little things...
but God we all need somethin'.
She swears this life is often overrated.Won't see her in the movies...
No, ain't no Marilyn Monroe.
She calls herself Maria
beause she likes the name.
She swears this life is often overrated.She can't relate to a world
that only knows her by her face.
Is there anyone still breathing?
And she thinks that I'm the one that makes it rain.She never cared for reason,
Had no religion at all.
She said it makes her feel unsteady
Without a God to blame.
She swears this life is often overrated.She can't relate to a world
that only knows her by her face.
Is there anyone still breathing?
And she thinks that I'm the one that makes it rain.She swears this life is often overrated.
She can't related to a world
that only knows her by her face.
Is there anyone still breathing?
And she thinks that I'm the one that makes it rain.Yeah...She makes herself at home..
Oh God, it's better than her place.
