

# All I Want Is Everything

[Mindy McCready](#)

Advisory - the following lyrics contain explicit language:

All I want is everything  
On a silver platter and a champagne glass  
All I want is everything  
And that shouldn't be too much to ask  
All I want is everything, all I want is everything  
All I want is a Cadillac  
The kind that Elvis drove down, babe  
He'll be riding in the back  
You and me baby behind the wheel  
All I want is everything, all I want is everything  
It's a big old world, it's a big  
old world  
Big enough baby for a pretty girl, yeah  
All I want is all your lovin'  
To feel the earth move when we kiss  
I don't need me a big old diamond  
Baby I'll take it if you insist  
All I want is everything, all I want is everything  
It's a big old world, it's a big old  
world  
Big enough baby for a pretty girl, yeah  
All I want is everything  
All I want is everything  
All I want is everything, yeah
