'Round Here

Sawyer Brown

Sue and Jack fell in love 'round here
They been goin' steady now for years
He couldn't afford much of anything
But he worked and bought her a diamond ring
And that's the way we do it 'round hereThat's the way it is and that's the way its done 'round here
That's the way we live and that's the way we love 'round here
Strong hearts and folded hands, a workin' woman and a workin' man
That's the way it is and that's the way its done 'round hereYou and I will fuss and fight 'round here
But after all this time one thing is clear
We get hurt and broken hearted
But we won't give up what we started
That's the way we do it 'round hereThat's the way it is and that's the way its done 'round here
That's the way we live and that's the way we love 'round here
Strong hearts and folded hands, a workin' woman and a workin' man
That's the way it is and that's the way its done 'round here
