U Turn

Joe Sample

Long trip, dull strip, Seems to go nowhere
Long day, wrong way, Never getting there

Decision is the key, It's just like STP
'Cause every drop you add
Gives you extra kick down that yellow-brick, U Turn

So when you're fellin' low, You need to undergo
A simple change of heart
Put some latitude in your attitude

Don't be concerned with yesterday
You've got to make a beeline for tomorrow
Your heart will surely find the way
You'll learn to undo the heart burning when, U Turn

(Piano Solo, go Joe go!)

So when you're fellin' low, You need to undergo
A simple change of heart
Put some latitude in your attitude

Don't be concerned with yesterday
You've got to make a beeline for tomorrow
Your heart will surely find the way
You'll learn to undo the heart burning when, U Turn!
