

# U Turn

## Joe Sample

Long trip, dull strip, Seems to go nowhere  
Long day, wrong way, Never getting there

Decision is the key, It's just like STP  
'Cause every drop you add  
Gives you extra kick down that yellow-brick, U Turn

So when you're fellin' low, You need to undergo  
A simple change of heart  
Put some latitude in your attitude

Don't be concerned with yesterday  
You've got to make a beeline for tomorrow  
Your heart will surely find the way  
You'll learn to undo the heart burning when, U Turn

(Piano Solo, go Joe go!)

So when you're fellin' low, You need to undergo  
A simple change of heart  
Put some latitude in your attitude

Don't be concerned with yesterday  
You've got to make a beeline for tomorrow  
Your heart will surely find the way  
You'll learn to undo the heart burning when, U Turn!
