The Days Keep Going By

Rooney

Was it me?
We had a good thing and now it's just me
Writing words that don't mean a thing
What did I do?
I thought you said this wasn't the time for us,
For something so wonderful and true
Do you think about me when you're far away?
Does it hurt you when you think about how...
[Chorus]The days keep going by,
And I keep trying to be someone new
Yeah, the days keep going by
And all I think about is being with you
What's the point?
I'm only talking to myself and for what? -
Just to prove that I'm someone new

Well, I'm like a switch - just a click
And you'll never hear from me
It's so easy when you think about how...
[Chorus]What do I say?
It's hard to keep on caring when you don't respond,
But I don't want to shut you out
[Chorus]Well, the last time you were home
You wouldn't let go (let go) of me, too,
But the days have passed us by,
And all we've gotten is a bad review
The days keep going by,
The days keep going by,
The days keep going by,
No, the days can't say goodbye...
