Your Ghost

Juliette Commagere

Our hearts sealing all our fate
I hear words that sound like you
They stay with me, they're not trueMake them make up with you
And yes, he is my only thought
He now lives here mostly
I asked him alone
I'm missing myself mostly
I feel itchy for youOur hearts sealing all our fate
I hear words that sound like you
They stay with me, they're not true
Our hearts sealing all our fate
Still I wish it was a dream
It's in our eyes we grieveI first start hear him move
And then I really lost my cool
We had given up
Yeah, you miss the ocean
And the sunshine
I follow your ghostOur hearts sealing all our fate
I hear words that sound like you
They stay with me, they're not true
Our hearts sealing all our fate
Still I wish it was a dream
It's in our eyes we grieveIt's in our eyes we grieve
I wish it was a dreamStay and he'll hesitate
The isles of me are who I said
I need no more bloodThey exist for now
They are loose spirits
I fear morningOur hearts sealing all our fate
I hear words that sound like you
They stay with me, they're not true
Our hearts sealing all our fate
Still I wish it was a dream
It's in our eyes we grieve
