Never Coming Back

OMC

Siales gone away and shes never comin back here again
I understand, I know where youre comin from
Just take your time, you've planned this since the first time we met, ohAre you ever comin back? Are you ever comin back?
Are you ever comin back? Are you ever comin back?
Are you ever comin back? Are you ever comin back again?First time I saw you, you were crowned in silver
Youre hair full of fire, I guess you would have been a goddess
Incognito, hiding all my lies, and this year, I was more than contentTen times my eyes glanced upon your temple
But I never imagine my deep fantasies
In case you really had another lover, another brotherI know your name is desire
The words you speak chocolate coated whispers
You have a style so unique and pure
A vision from up above, I think Im infatuated by your spiritAs you passed by my eyes
Im like a little child mesmerized by your magicWell, ten times my eyes glanced upon your temple
Well, ten times my eyes glanced upon your temple
Time flies when youre havin fun
Well, time flies when youre havin fun
Well, time flies when youre havin fun, well, time fliesSiales gone away and shes never comin back here again
I understand, I know where youre comin from
So take your time, you've planned this since the first time we metAre you ever comin back? Are you ever comin back?
Are you ever comin back? Are you ever comin back?
Are you ever comin back? Are you ever comin back again?Time flies when youre havin fun
Well, time flies when youre havin fun
Well, time flies when youre havin fun, well, time fliesSiales gone away and shes never comin back here again
I understand, I know where youre comin from
Just take your time, you've planned this since the first time we metAre you ever comin back? Are you ever comin back?
Are you ever comin back? Are you ever comin back?
Are you ever comin back? Are you ever comin back again?
