To Be Loved By You

Callaghan

Oh I dream there could be
One perfect guy created just for me
To give me love, and know just what I need
Now you've made me believe

Chorus:
And I don't know how it's true
And I don't know how I found you
But I love that you love me the way that you do
Cause it's more than anyone deserves
To be loved by you

One look from you is enough
To make me smile, whenever life's too much
And when I'm down, you lift me way, way up
I'm flying when we touch

Chorus

To be loved by you

Chorus

To be loved by you
