# Every Night

## Hannah DiAmond

I know you like the way that I look
And it looks like I like you too
You know I do
I like the way you know that I like how you look
And you like me too
I know you do
I see you look at me and I know
That you think you like what you see
I want you too
I think the time is right
And I want you to see how good it could be
For you and me
I want to see you every night
And feel your heart beat next to mine
I want to see you every night
We'll find a way to make it right
I want to see you every night
And feel your heart beat next to mine
I want to see you every night
We'll find a way to make it right
I know you like the way that I look
And it looks like I like you too
You know I do
I like the way you know that I like how you look
And you like me too
I know you do
I see you look at me and I know
That you think you like what you see
I want you too
I think the time is right
And I want you to see how good it could be
For you and me
I want to see you every night
And feel your heart beat next to mine
I want to see you every night
We'll find a way to make it right
I want to see you every night
And feel your heart beat next to mine
I want to see you every night

We'll find a way to make it right
