

# The Ones

## This Beautiful Republic

We're the ones and you're looking up at us  
Saying be the ones, be the ones  
You're the ones and we're looking up to you  
Saying you're the ones We're the ones and you're keeping us alive  
Saying be the ones, be the ones  
You're the ones who are holding the front line  
You're the ones Welcome every one who came out to the show  
Show me that you're ready, you're ready to go  
Welcome every one who came out to the show  
Show me that you're ready, you're ready to go  
Welcome every one We're the ones and you're looking up at us  
Be the ones, be the ones  
You're the ones and we're looking up to you  
You're the ones Welcome every one who came out to the show  
Show me that you're ready, you're ready to go  
Welcome every one who came out to the show  
Show me that you're ready, you're ready to go  
Welcome every one Welcome every one who came out to the show  
We're wound up and we're ready, we're ready to go Welcome every one who came out to the show  
Show me that you're ready, you're ready to go  
Welcome every one, welcome every one  
Show me that you're ready  
Show me that you're ready, ready to go
