Watch the Sun Come Out Tonight

Filter

Come watch the sun come out tonightWay yea yea
I'm turned face down
Dance more tonight
Let's all hit return to Mars now straightWhen the night comes out
What a fight[Chorus]
Come watch the sun come out tonight
We'll take it all and touch the sky
Terrible, it's the one that hurts
Burn out like all the stars
Come around and dine with us tonightWay yea yea
You can tell me if you more tonight
Waste away and bleed into the tideWhen the night comes out
What a fight[Chorus]This feels too good to be wrong
This feels too good to be wrong
It hurts too much to be young
This is what you get from all that life aloneLet's watch the sun come out tonight[Chorus]
