

Getting Better

The Paul Hemmings Trio

Getting better, getting better... (Repeated) Sometimes I feel like I can fly
You take my hand and I electrify
Your smile is driving me insane
You are my sun, my moon, my rain Cause makes me feel like loving you
And I know, it keeps on getting better
That the skies have turned to blue
Yes I know, it keeps on getting better Makes me feel like loving you
And I know, it keeps on getting better
Now the skies have turned to blue
Yes I know, it keeps on getting better Getting better, getting better... (Repeated) Sometimes I feel like I can fly
You take my hand and I electrify
Your smile is driving me insane
You are my sun, my moon, my rain Cause makes me feel like loving you
And I know, it keeps on getting better
now the skies have turned to blue
Yes I know, it keeps on getting better Getting better, getting better... (Repeated) Makes me feel like loving you
And I know, it keeps on getting better
That the skies have turned to blue
Yes I know, it keeps on getting better
