

# You Ain't Down Home

[Julie Roberts](#)

You know all the right people  
You wear all of the right clothes  
You got a snappy little sports car  
All your own  
You got the cool conversation  
On your high tech telephone  
But you got one little problem, baby  
You ain't down home  
You ain't down home  
Where the people got their feet on the ground  
Down home  
Where there's plenty of love to go 'round  
You got the cool conversation  
On your high tech telephone  
But you got one little problem, baby  
You ain't down home  
You got a brand new Jacuzzi  
All your credit cards are gold  
There ain't a high class place in town  
Where you ain't known

You make it all look impressive  
Yeah, you put on quite a show  
But you got one little problem, baby  
You ain't down home  
You ain't down home  
Where the people got their feet on the ground  
Down home  
Where there's plenty of love to go 'round  
You make it all look impressive  
Yeah, you put on quite a show  
But you got one little problem, baby  
You ain't down home  
You make it all look so impressive  
Yeah, when you're showin' all your dough  
But you got one little problem, baby  
You ain't down home  
There's just one little problem, baby  
You ain't down home
