

# The Pdm Is Coming...

## Project Deadman

Advisory - the following lyrics contain explicit language:

Oh shit. It begins right where it ends. Here it goesThe PDM is coming we got to take our places

Now everybodies gotta back away to see their faces

Sick of your brainwashed bullshit your fuckin lies is bullshit

It's time to take a look we read your fake ass like a book(Prozak)

PDM tell me what does it mean

Terrifying shit that'll make a mother fucker scream

A raising of the wicked and self inflicted

Non believers self destruct when we spit it

In a minute bout to run the game and it's a shame

Bitches gettin lockjaw from speakin our name in vain

Fuck the fame PDM's about the glory

Fuck keepin it real and fuck your life story

You bore us walkin towards us just ignore us

Wish you was real but your microphone's chordless

And hopeless so disgusting when I wrote this

The underground is out of tune and out of focus

We're bringing it back to that level again

When mother fuckers play the part another rebel within

Yea shut your mouth and take your 2 to the chin

I'll check your ass like my name was Osama BinThe PDM is coming we got to take our places

Now everybodies gotta back away to see their faces

Sick of your brainwashed bullshit your fuckin lies is bullshit

It's time to take a look we read your fake ass like a bookYes mother fuckers YES HAHAAAAHA(Prozak)

Bets on my life and the devil's takin bids

Played with quija boards and knives when I was a kid

Schitzofrantic see my brain is always waving

Cross between Steven King and Wes Craven

Your worst nightmare we take it right there

Project deadman got you runnin like a bomb scare

Michigan the murder glove or the mitten

Call it what you want wicked rhyme spittin

Bodies floatin in the great lakes screamin loud

Watch the dead wake watch the murder victims body shake  
A homicide aint no thing to us  
Eject the CD because the shit is too dangerous  
Blow through your mind like a migraine  
Have you screamin from your soul suicide on the night train  
Crash and burn explode implode reload  
See you in hell as the story was told goodbye  
The PDM is coming(8x)  
The PDM is coming we got to take our  
places  
Now everybodies gotta back away to see their faces  
Sick of your brainwashed bullshit your fuckin lies is bullshit  
It's time to take a look we read your fake ass like a book  
The PDM is coming The PDM is coming The PDM is  
coming  
back away to see their faces  
Sick of your brainwashed bullshit your fuckin lies is bullshit  
It's time to take a look we read your fake ass like a book  
The PDM is coming The PDM is coming The PDM is coming
