

Provincial Blues

Jason Collett

I came to the city
When the city was cheap
Now that cheese had some work done
I pay through the teeth
You came from Alberta
You said 'Toronto's not so bad'
I took it as a compliment
But I couldn't think of a compliment backIt's just the wheeze rolling by
It's just the wheeze rolling by
How did we all get hypnotized
By the time sometimes
How did we all get left behind
By the time sometimesYou were told your mother
She went and told your dad
That's how your older brother
Came to get my ass
They send with new york
I said a drag
How come a better party
That I think I should be atIt's just the wheeze rolling by
It's just the wheeze rolling by
How did we all get hypnotized
By the time sometimes
How did we all get left behind
By the time sometimes
