

# Put It Down

## Brandy

I'mma put it down, you gon' fall in love  
I'mma put it down, you gon' fall in love  
I'mma put it down, you gon' fall in love  
I'mma put it down, you gon' fall in love  
I'mma put it down, you gon' fall in love  
I'mma put it down, you gon' fall in love  
I'mma put it, I'mma put it, I'mma put it...

I'mma put it down...

[Chorus]If you put it down right like the way I want it

Play your cards right, maybe we can fall in love

If you put it, put it, if you put it down

If you put it, put it, maybe we can fall in love

I'mma put it down, you gon' fall in love

I'mma put it down, you gon' fall in love

If you put it, put it, maybe we can fall in love

I'mma put it down, you gon' fall in love

I'mma put it down, you gon' fall in love

If you put it, put it, maybe we can fall in love

[Brandy]Ooh the way you talk game, it's so tough

Damn I love it all

Even the way you flex

That's what turn me on

Ooh you know you make me weak

Just cause the way you are

Cause everybody in here know you're a star

But still I'm letting you know

I got the sweetest heart

Any man that wants this, babe

He gon' have to work hard

From what I see, you got what I want

That's just half the part

Gotta see what you put on it

To make sure you're the one

[Chorus]If you put it down right like the way I want it

Play your cards right, maybe we can fall in love

If you put it, put it, if you put it down

If you put it, put it, maybe we can fall in love

I'mma put it down, you gon' fall in love

I'mma put it down, you gon' fall in love

If you put it, put it, maybe we can fall in love  
I'mma put it down, you gon' fall in love  
I'mma put it down, you gon' fall in love  
If you put it, put it, maybe we can fall in love  
[Brandy]I hope the chivalry ain't dead to you boy cause I'm grown  
Gotta pull up, and then come up with that when I see what I want  
Gotta go old school women sometimes  
Still keep it so, twenty twelve for me  
Cause I still beef it up  
And that I still I want you to know  
Got the sweetest heart  
And even though he can buy that coupe for me  
He gon' have to work hard  
And now I see, you got what I want  
That's just half the part  
I gotta feel what you put on it  
To make sure you're the one

[Chorus]If you put it down right like the way I want it  
Play your cards right, maybe we can fall in love  
If you put it, put it, if you put it down  
If you put it, put it, maybe we can fall in love  
I'mma put it down, you gon' fall in love  
I'mma put it down, you gon' fall in love  
If you put it down right, maybe we can fall in love  
I'mma put it down, you gon' fall in love  
I'mma put it down, you gon' fall in love  
If you put it down right, maybe we can fall in love

[Chris Brown]Ain't nobody put it down like me though  
Why are you playing? girl you know  
With all this money, and all your cake  
Girl you better stop, I got a big ego  
I'm sipping on that brandy  
That liquor comes in handy  
And girl I know you fancy  
But this party I'm financing  
She told me, it ain't even like that  
She been hating all night  
Her friend uptight, alright  
(so put it down)  
I took her at the club  
Told the girl she'd be right back  
Back to the crib  
And in the morning all this is worth it  
Baby go get your hair did

And buy you a couple purses, you just perfect  
[Bridge] You, you, you, can be the one I call  
When having a bad day  
And I need a shoulder to cry  
You, you, you, might change the way I feel  
Teach me how to let the guard down  
Ain't gone lie, there's been times  
Thought the one I had  
Was the answer to my prayers  
Come to find out and he wasn't the truth  
And I got you, tryna tell me  
If I let you put it down...  
I'mma put it down, you gon' fall in love  
[Chorus] If you put it down right like the way I want it  
Play your cards right, maybe we can fall in love  
If you put it, put it, put it, if you put it, put it  
If you put it, put it, maybe we can fall in love  
(It's the B-R, to the E-E, to the Z-Y)  
I'mma put it down, you gon' fall in love  
I'mma put it down, you gon' fall in love  
If you put it, put it, maybe we can fall in love  
(It's the B-R, to the A-N, to the D-Y)  
I'mma put it down, you gon' fall in love  
I'mma put it down, you gon' fall in love  
If you put it, put it, maybe we can fall in love  
If you put it down right like the way I want it  
If you put it, put it, put it, if you put it, put it down  
If you put it, put it, maybe we can fall in love
