

Made to Live

Hawk Nelson

With every star You hung up in the sky
You were leaving Your fingerprints
And when You brought my heart to life
You were leaving Your fingerprints
So I know I'm here for a reason
And there's a purpose in every season
Cause You got me, got me believing
(Oh You got me, got me believing)

I was made to live

I was made to live

I was made to live

For You

I was born for this

Not to just exist

I was made to live

For You

So if I can learn to love the way You do
I'll be leaving Your fingerprints
And when I stand for what is true
I'll be leaving Your fingerprints
And my heart, it might take a beating
But sometimes this blood is for bleeding
And I know I'm here for a reason
(Oh You got me, got me believing)

I was made to live

I was made to live

I was made to live

For You

I was born for this

Not to just exist

I was made to live

For You

So I'll give it all I have till nothing's left
I'm not

Holding back even a single breath

Cause I was

(Made to live)

(I was made to live)

I was made to live

For You
I was born for this
Not to just exist
I was made to live
For You
Yeah, Yeah
I was made to live
