

Yesterday

Roy Rogers

What a day was yesterday

Oh, yesterday gave me you

All my schemes and golden dreams

At last it seems have come trueUntil I found you, the skies were always gray

Then like a sunshine you drove the clouds away

You'll never guess my happiness

When you said yes, yesterdayDays may come and go but one day you'll know

We'll live as the day of days

It was yesterday that I heard you say

I'll love you dear alwaysWhat a day was yesterday

Oh, yesterday gave me you

All my schemes and golden dreams

At last it seems have come trueUntil I found you, the skies were always gray

Then like a sunshine you drove the clouds away

You'll never guess my happiness

When you said yes, yesterday
