Come with Me

Ceo

Come with me, from a place they call reality
Come with me, neither up nor down, it's a special light you see
Come with me, we can sacrifice this life to make it realCome with me, to place I call reality
Come with me, now I have no fantasy words from this baby
Come with me; are you ready to explode to make it real?If I could bring you to my home
I wish you'd come I know you'd want
I'm gonna bring you to my homeCome with me,
Come with me,
Come with me,
Come with me,
Come with me
Oh baby Oh babyIf I could bring you to my arms
I wish you'd come I know you'd want
I'm gonna bring you to my home
