Raw and Awake

Chris Garneau

I shatter and shake
The memory is raw, it?s awake
And even though I go around, in circles
All over town.

It drags me down.
Your right, so right
I torcher myself, in the night.

I know you love me but be smart,
Our first solution, instead of your heart.

La da da da
I shatter and shake is raw, it?s awake
Yea, even though I go around, in circles
All over town.

It drags me down.
