

# Nocturne

Michel BÃ©roff

Nightmare bring me to the dawn  
I must ride your body on  
Deep inside me I know  
You can't hide me from harm  
I'm the secret that you bear  
Born of anger and despair  
Who will strangle me?  
Who will untangle my hair?  
Come to me, I can see  
Through the holes in your eyes  
When I scream out in terror  
You're the one by my side  
Run to me strong and pure  
As the monster's child  
We've been captured for a lifetime

But we're free when we're wild  
Sleep, my little darling  
Don't you cry for Mama, she's all gone  
Nightmare came and took her in his arms  
Find your dark horse  
And ride your course through the storm  
Lay me down you can see  
Through the rain in my eyes  
That I've no more to lose  
And I've nothing to hide  
Playing in midnight fields  
Of dreams exiled  
We are strangers in the city  
But we're free when we're wild
