Girl

The View

Lying, on some euphoric vibe,
There's stories being told of a girl you'd like to ride
Oh, she seems nice, to the blind man with the drink
But oh, man, what a tea leaf,
No second chance to think

She said she's changed, but I know her game,
She'll cane all your baggies and leave someone to blame,
So, I'm never gonna ask her

CHORUS:
Don't let the girl come in,
Don't let the girl come in,
She'll put you in a spin, take everything,
Just don't let her in.

I enter in, the middle of the night
Nev's house seems oh so empty,
I can feel her kicking about
The door goes crash, and out goes my guitar,
Mustn't worry much, 'cos next door's never far

So I chap the door, and out she comes,
Looking rather smokin' as if nothing has occurred.
So, I'm never gonna ask her

CHORUS (x2)

Don't let the girl come in,
'Cos you know, you know, she'd put you, put you in a spin,
So, stay away, don't answer opening,
Answer nothing more, than what is going
On in your house (x4)

CHORUS (x3)

Just don't let her in
