

I Never Learnt to Share

James Blake

My brother and my sister don't speak to me
But I don't blame them
But I don't blame them

My brother and my sister don't speak to me
But I don't blame them

But I don't blame them My brother and my sister don't speak to me
But I don't blame them
But I don't blame them

My brother and my sister don't speak to me
But I don't blame them

But I don't blame them My brother and my sister don't speak to me
But I don't blame them

But I don't blame them My brother and my sister don't speak to me
But I don't blame them
But I don't blame them
But I don't blame them
But I don't blame them

But I don't blame them My brother and my sister don't speak to me
But I don't blame them
But I don't blame them

But I don't blame them My brother and my sister don't speak to me
But I don't blame them
But I don't blame them

My brother and my sister don't speak to me
But I don't blame them

(But I don't blame them) But I don't blame them
(But I don't blame them)
But I don't blame them
(But I don't blame them)
But I don't blame them

(But I don't blame them)(But I don't blame them, but I don't blame them)
But I don't blame them
(But I don't blame them)
But I don't blame them

(But I don't blame them) But I don't blame them
(But I don't blame them)
But I don't blame them

(But I don't blame them) But I don't blame them
But I don't blame them
