Monkey Brains

Our Lady Peace

Makin' plans for your escape
Get between all the ricochets
Assume positions in the sky
Fly away with the butterfliesRest your head in Pacific grove
Lose yourself down in Mexico
Wanna taste of the monkey brains
Take a bite man, don't be shyThey're comin' after you
They're comin' after you
It's all you can do
They're comin' after youGot your file and your DNA
Membership in the NRA
On the list with the FBI
Yearbook pics from the junior highCamouflage in your orange and black
Soar above all the ground attacks
Safe and sound on this coastal plane
Celebrate with the cheap champagneThey're comin' after you
They're comin' after you
It's all you can do
They're comin' after youGenerations tryin' to find a home
A thousand miles away
From what they know
It's time to go, it's time to goGenerations tryin' to find a home
A thousand miles away
From what they know
It's time to go, it's time to go
It's time to go, it's time to goThey're comin' after you
They're comin' after you
It's all you can do
They're comin' after you
