Get In The Car And Drive

Eli Young Band

In this picture you're right beside me
Arms around my neck and eyes like you'll never leave
A love lover, a sweet thing
I know we agreed, but I think I'll call you anyway.Well hello, It's just me
A little distance and I lost something in between
I've waited forever
For this to get better.She said how can I believe in something I can't see or feel with my fingers?
Yeah how can I believe
And I said...Anytime you think you wanna be my love
That's a reason to do what you're thinkin of
Anytime you think you wanna come on over
Stop asking, get in the car and drive
Stop asking, get in the car and driveWell hold on take it slowly
Breathing deep and MEANING EVERY WORD JUST FOR YOU
only
Keep this inside you no matter what you do
These are the simple things in loving, yeah
The simple things in loving, yeah.She said How can I believe in something
When you're never here and I'm not sure if I need this?
How can I believe?
And I said...Anytime you think you wanna be my love
That's a reason to do what you're thinkin of
Anytime you think you wanna come on over
Stop asking, get in the car and drive
Stop asking, get in the car and driveShe said How can I believe in something
I can't see or feel with my fingers?
Yeah how can I believe?
And I said...Anytime you think you wanna be my love
That's a reason to do what you're thinkin of
Anytime you think you wanna come on over
Stop asking, get in the car and drive
Stop asking, get in the car and driveStop asking, get in the car and drive
Get in the car and drive.
