

Rock Your Baby

Wanda Jackson

Rock your baby, all night long
Take me in your arms and whisper low
Then rock your baby and don't be slow
Birds was made to sit in a tree
And you were made to dance with me
Here's your chance, now, don't go wrong
Gotta rock your baby, all night long
Take me in your arms and whisper low
Then rock your baby and don't be slow
I got my hair fixed in a pony tail
So when we dance it'll really sail
If you love me, then tell me so
But rock your baby and don't be slow
