Acid Flesh

White Zombie

Great white eyes bleed away the trembling sound
No more time, body spasm deep and passing acid flesh
Human river stepping stones of love and death
A living legend's legacy yeah, hustler of the dead
Revolution steals the world and turns the sky to red
Home sweet hellhole to the last man on earth
See what the face of evil is truly worth, yeah
Turn your eyes to the sky a corpse of blue
Night is time growing strong with every moment
Acid flesh chaos pulsing in my veins, yeah
Hell house temptation walk on to salvation
Cold steel-pain trust hot blood-forever lust
Raw horror make cheap thrills twitch the nerve get your fill
Razor make clean cut river red so what
Gut twisting holiday skin dripping pay to play
Stain is blood without a doubt God slayer action
Eye to fist fist to eye, dig the war anyway
Killing time, killing time, bending cracks up in my mind
Bite down
Bite down
Money burns in my hands
I can't seem to get enough
Hammerhead says to you
Love is the one thing money can buy
Bite down
Bite down
Down
Down
