Higher We Go

Stratovarius

Feeling so sad and tense
Confusion on my mind
Nothing makes any sense
Things are entwined
Hopeless soul in the haze
Trying to find a way
Out of this wicked maze
To a new dayWe will rise out of agony
And find our way to victoryHigher we go, climbing up to the skies
Higher we go, a new day will ariseWhen all is crashing down
I know the time will heal
In this insanity
Define what is real
Together we are so strong
Holding our heads up high
We will carry on
Till the day we dieWe will rise out of agony
And find our way to victoryHigher we go, climbing up to the skies
Higher we go, a new day will arise
