

Always

Rasmus Faber

Cloudy skies, careless lies
The time we had was bound to end
Break of dawn, you were gone
Drinks and bars, taxi cars
Give me something to hold on to
Time moves on, you are gone

Everyday people say
I'll be better after long
I am sure, there's no cure
Trains and flights, tourist sites
Give me something to hold on to
Time moves on, you are gone

Chorus:

Always, you will always haunt me in my dreams
Always, never gonna wake and start a new
Always, you will always haunt me in my dreams
Never gonna start a new
Never gonna wake up ever

Rise and shine, get in line
A voice inside keeps blaming me
Follow track, don't look back
Prime time news, war and truce
Give me something to hold on to
Time moves on, you are gone

I must try to get by
Smile and hope for better days
Time moves on, you are gone
Rainy nights, city lights
Give me something to hold on to
Time moves on, you are gone

Chorus (x2)

Never gonna wake up ever (x4)
