Summertime Train

Shudder to Think

Red train combs the steel-hair track (in the summer) Rust jumps car and sleeps in back (summertime train's blind). "Careful airplanes think I'm old (in the summer) but they're too fast living really" (summertime train's blind). Window's warm conductor's drowsing. Coal heart sings a wig of smoke (in the summer) to waltzing leaves and twigs half broke (summertime train's blind). Blue roof house with bathtub lakes (in the summer) and bodies in its belly shake, shake (summertime train's blind). Window's warm, conductors drowsing.
