Love In Action

Utopia

Alright, no place to hide
And no where to run
And nothing you can do
Because a change must comeYou can't stop it
You can't stop it
I said, you can't stop it
You can't stop itYou got your tail in the air
Your head in the ground
Money, money, money
Makes your world go 'roundYou can't stop it
You can't stop it
No, you can't stop it
You can't stop it
I said, you can't stopYou can't stop, you can't stop
You can't stop, you can't stop
You can't stop love in action, love in actionCan't stop love in action
Can't stop love in action
Can't stop love in actionYou just joined the clan
Your head's full of sand
You need a bunch of friends
To make you feel like a manBut you can't stop it
You can't stop it
No, you can't stop this
You can't stop itYeah, you could be the last trace
Of the master race
The Nazis really send you to another placeStill you can't stop it
You can't stop it
No, you can't stop it
You can't stop it
I said, you can't stopYou can't stop, you can't stop
You can't stop, you can't stop
You can't stop love in action, love in actionYou can't stop love in action
Can't stop love in action
Can't stop love in actionYou can't stop, you can't stop
You can't stop, you can't stop
You can't stop, you can't stop, you can't stop
Can't stop love in action, love in actionYou can't stop love in action
Can't stop love in action
You can't stop love in actionCan't stop love in action

You can't stop love in action
Can't stop love in action
You can't stop love in action
