All I Need Is You

Glen Campbell

(Newer Just Before his Alzheimer's disease for his wife)Some people care about religon
Makin' money or fancy livin'
But I just want to live my life lovin' you
Is that such a bad thing for me to do
All I need is is you
All I need is is youI don't need you to tell me how great I am
To make me want you as my friend
I just want the truth and a smile on your face
Feel the pain of your heart and your warm embrace
All I need is is you
All I need is is youI'm gonna hold you
Like there's no tomorrow
I'm gonna love you
Like it's our last today
Baby this time alone
Is once in a life time
I can't beieve this thing aint a dream of mine
All I need is is you
All I need is is you
I just want to live my life lovin' you.
