

Five String Serenade

The Switchblade Kid

This is my five string serenade
Beneath the water we've play
And while I'm playing for you
It could be raining there tooThis is my five string serenade
Beneath the water we've played
And while I'm playing for you
It could be raining there tooAnd on my easel I drew
While I was thinkin' of you
And on the roof of my head
In came my five string serenadeThis is my five string serenade
Beneath the water we've played
And while I'm playing for you
It might be raining there tooAnd on my easel I drew
While I was thinkin' of you
And on the roof of my head
In came my five string serenadeThis is my five string serenade
Beneath the water we've played
And while I'm playing for you
It might be raining there tooThis is my five string serenade
