

Poisonous

Tech N9ne

Now you know that I'll never give you anything
That will hurt you right baby so try this
Yeah, yeah, you like that? I saw you back where we began then you took me for a spin
And captivated brought me in and now
See I still watch you from a distance, lost in you lose all resistance
Poisonous the way you took me out
'Cause you got the best of me, 'cause you got the best, of me
Nina, I'm like a walking drug
I can make your lady pop X want sex from a nigga like me
I can feel her nightly even make her fall off in love
Get away lost off in hugs, stalkin' blood for an awesome plug
This is addictive, vicious and wicked slick talkin' stud
I take good gals, recruit 'em, pollute 'em put X in they
wood valve
To shoot 'em, they chewed 'em up and true enough
They would be poppin', droppin', pursuin' us
Plus screwin' the crew an' such a ruined slut livin' through a nut
That was then but now I see 'em, they be on the
same shit
Brainless, itchin' to get that quick trip wanna be painless
I don't fuck with it no more that I can arrange it
I was like Dracula attackin' her when I give her game
Hella vein language
It was they choice to trip, I kept her moist and slick
Now she's an annoying chick, I started avoiding Miss
Give her them toys and split
I polluted so many women with bad habits and drugs
I guess I'm poisonous
I saw you back where we began then you took me for a spin
And captivated brought me in and now
See I still watch you from a distance, lost in you lose all resistance
Poisonous the way you took me out
'Cause you got the best of me, 'cause you got the best of me
