Nasty Habits

Only Child

You should've seen me last night
Working the room had thier cheasts going tight
I got a thoery, all I need is one drink.
I've got you heavy and breathing all deep,
Gasping for air and down on your knees
You're in love, but for only as long as your wanted..You never miss a beat, but..You're the best kept secret
Rolling off my tongue
Some say you're as easy as they come
and I say, what a way for the ice to breakYou're the best kept secret
Rolling off my tongue
Some say you're as easy as they come
and I say, what a way for the ice to breakBreak down,
You've always been so proud
and just look at you now.
You're a bad smell in this room.
I don't wanna,
I don't wanna be bad news
I don't wanna,
I don't wanna be bad news
but you are,
but you are.Would walk through hell with a smile on my face.
Just so I could make my mark on the hottest place.You're the best kept secret
Rolling off my tongue
Some say you're as easy as they come
and I say, what a way for the ice to breakYou're the best kept secret
Rolling off my tongue
Some say you're as easy as they come
and I say, what a way for the ice to breakTo break..You're the best kept secret
Rolling off my tongue
Some say you're as easy as they comeYou're the best kept secret
Rolling off my tongue
Some say you're as easy as they come
and I say, what a way for the ice to breakYou're the best kept secret
Rolling off my tongue
Some say you're as easy as they come
and I say, what a way for the ice to breakWhat a way for the ice to break..
