

# Star Baby

## Marcy Playground

Say what you will  
You're my star, baby  
When you coming down  
When you coming down  
Come on down  
When you coming down  
When you coming down  
Come on down  
Star gazer  
Dream maker, I'm in love with you  
I spin the bottle  
And every time it's landing right on you  
So say what you will  
Inside baby  
When you coming down  
When you coming down  
Come on down  
When you coming down  
When you coming down  
Come on down  
I've been waiting  
Waiting patiently every night  
Just to see you  
Just to see your perfect shining light  
My heart is like a photograph, album  
Of all the good times and bad and I've had some  
Where I miss this girl and I miss that girl  
I don't miss that girl but sometimes I miss this girl  
But you, you're my star baby, you're my star baby  
And when you coming down  
When you coming down  
Come on down  
When you coming down  
When you coming down  
Come on down  
When you coming down  
When you coming down  
Come on down
